Alo Doctor

Alo Doctor is an online physical therapy consultation app. In which user can view doctors, book appointments and do online consultation via in-app video calling feature.

We used Agora for video calling and Paypal as a Payment gateway. Entire fornt-end of the application was developed in flutter and the back-end was written in Laravel (PHP).

The entire project is divided in three applications, one for Patient, one for Doctor and for the Admin.

Patient and Doctor Application are live on Play Store

Patient: https://play.google.com/store/apps/details?id=com.thegraphe.alo_doctor_patient

Doctor: https://play.google.com/store/apps/details?id=com.thegraphe.alo_doctor_doctor

And Doctor app is live on App Store, Patient app is under review.

Doctor: https://apps.apple.com/in/app/alo-doctor-for-doctor/id1604750890
